CH₃IMIA – prieten sau dușman?!

Ediția a XIII-a

Concurs Național de Comunicări Științifice pentru elevii din clasele liceale

- Disciplina CHIMIE -

The central graphic is a large funnel. Inside the funnel, at the top, is a molecular model with red and blue spheres. To the left of the funnel are several amino acid structures labeled: Gly, Leu, Pro, Cys, Asn, Gln, Ile, and Tyr. To the right is a color-coded periodic table of elements. At the bottom of the funnel, there are two pairs of stick figures. The left pair is shaking hands, with a yellow smiley face below them. The right pair is holding bombs, with a yellow thinking face and a question mark below them. In the center of the funnel, there are large black question marks and an exclamation mark. At the very bottom of the funnel, there is a molecular model with orange and blue spheres.
